

The 3M logo is displayed in a bold, red, sans-serif font in the upper left corner of the advertisement.A photograph of a kitchen counter with a white laminate top. The counter is covered with a clear, protective plastic film. In the background, a wooden cabinet and a black oven are visible.

General Purpose Protection Tape

**short-term protection
for long term results**

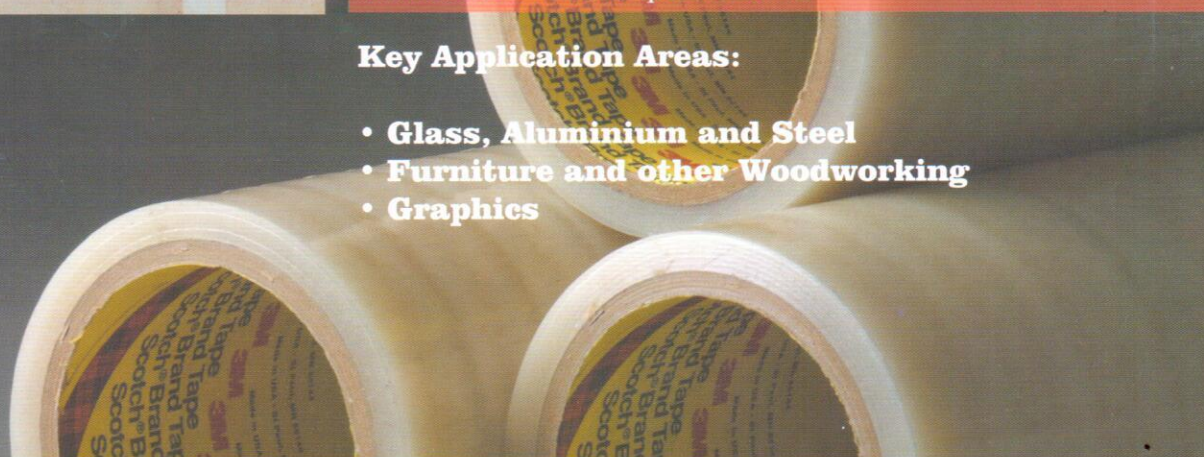

3M™ offers a line of tapes to protect your product from scratching, marring and chipping. 3M™ General Purpose Protective Tapes offer exceptional short-term protection for many different materials.

These tapes also come in different backings like polyethylene, polyester, and polypropylene. And have a special adhesive that will not leave residue upon removal.

Key Application Areas:

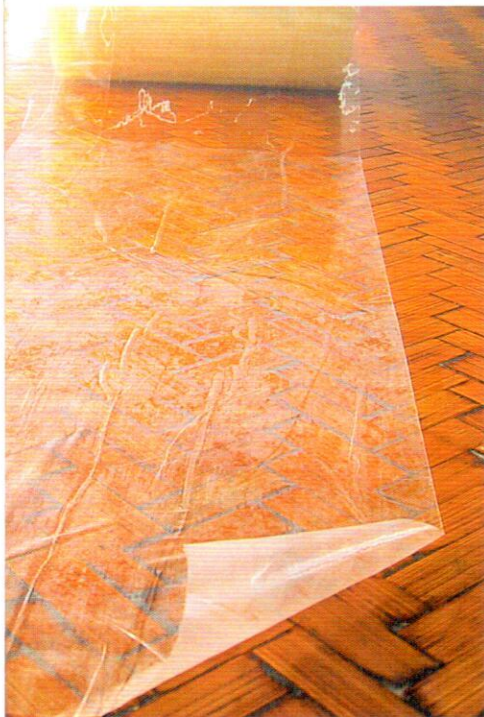

- **Glass, Aluminium and Steel**
- **Furniture and other Woodworking**
- **Graphics**

A peel-off protective mask for your cherished possessions

3M™ General Purpose Protective Tapes provide exceptionally tough surface protection on many metals, woods, and plastics. They conform well to curvatures, can be pre-cut into convenient shapes, and can even be painted or printed over.

These tapes are used throughout the aerospace, transportation and machinery industries for their unique combination of performance properties and ease of application.

3M™ offers a line of tapes to help protect your product from:

- Scratching
- Marring
- Chipping

3M™ General Purpose Protective Tapes help prevent damage during:

- Production and assembly
- Packaging and shipping
- Installation

Unique product features include:

- Excellent conformability
- Exceptional elongation strength
- Optimum abrasion resistance
- Easy and clean tape removal
- Better transparency
- Good abrasion resistance
- Cost effective

IMPORTANT NOTICE: User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's method of application. Please remember that many factors can affect the use and performance of a 3M ITSD product in a particular application. The materials to be used with the product, the surface preparation of those materials, the product selected for use, the conditions in which the product is used, and the time and environmental conditions in which the product is expected to perform are among the many factors that can affect the use and performance of a 3M ITSD product. Given the variety of factors that can affect the use of a 3M ITSD product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M ITSD product to determine whether it is fit for a particular purpose and suitable for the user's method of application.

LIMITED WARRANTY: The sole obligation of the manufacturer, distributor, and/or seller of this product shall be the replacement of 3M [redacted] product, if notified of the defect within six months of the date of purchase. Such quantity of the product deemed defective shall be replaced and there shall be no liability of injury, loss, or damages, either direct or consequential, arising out of the use or inability to use the product. The company disclaims all oral warranties of any kind. 3M MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

LIMITATION OF REMEDIES AND LIABILITY: If the 3M product is proved to be defective, THE EXCLUSIVE REMEDY, AT 3M'S OPTION, SHALL BE TO REFUND THE PURCHASE PRICE OR TO REPAIR OR REPLACE THE DEFECTIVE 3M PRODUCT. 3M shall not otherwise be liable for loss or damages, whether direct, indirect, special, incidental, or consequential, regardless of the legal theory asserted, including contract, negligence, warranty, or strict liability.
